To Whom it May Concern:

Layla Love took such excellent photographs for one of my productions that we were inspired to make a collectable book of her photographs.

Not only was she a dedicated professional everyday on the set, even going the extra mile to help out in other areas, but she also took fantastic photos – amazing composition, keen sense of style, a terrific eye for capturing great moments at great angles, and a true artist.

She was easy to work with, reliable, pleasant, and made a great contribution to the crew. I'd definitely be happy to have her working on any of my sets in the future.

Sincerely,

Sydney Blue
